DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 3, 10, and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, "the level of temperature variation" is indefinite, as such level is not defined; "the thus measured peak in the temperature variation per unit of time", and "the thus measured dip in the temperature variation per unit of time" are indefinite.

Claim 10 is ambiguously constructed and indeterminate in scope because they purport to claim both an apparatus and method of using or practicing the apparatus in a single claim. A further evaluation of the merits of these claims is delayed pending applicant's revision of the claim.

Allowable Subject Matter

Claim 1, and 4-9 allowed.

Claims 2 and 3 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
